Dear Mrs J Hannigan

RE: CARRIAGEWAY REPAIRS, A590 GREENODD BENDS RESURFACING

EM Highways Services Ltd. are the managing agents for the Highways Agency and are responsible for managing and maintaining the trunk roads and motorway in Cumbria and the North Lancashire area.

A project to resurface a section of the A590 trunk road between Greenodd Roundabout and Toll Bar junction, Cumbria is planned to start at the beginning of December 2014.

The work, which includes renewing the existing road surface and markings over a length of approximately 1.2km, are programmed to be carried out overnight (between 20:00 to 06:00), over two weekends.

In order to carry out these works, the A590 between the two locations will be completely closed. These nightly closures are required for the safety of the work force and minimise the duration of the works. The extent of the closure extends from Greenodd roundabout to Toll Bar junction provisionally booked to start on **Fri 5th December to Mon 08th December (20:00 - 06:00 each night)** with the following weekend subject to the same restriction between **Friday 12th December to Mon 15th Dec (20:00 – 06:00 each night)** with the all restriction removed during the day.

As shown on the enclosed drawing no. 1110071 / 003 the proposed works will involve diverting westbound traffic from the A590 at Newby Bridge onto the A592 to Bowness and A591, onto A593 to Ambleside, A5084 at Tover and back to A590 at Greenodd roundabout via to A5092. The eastbound diversion route will be opposite of this. A clearly signed diversion route will be in place.

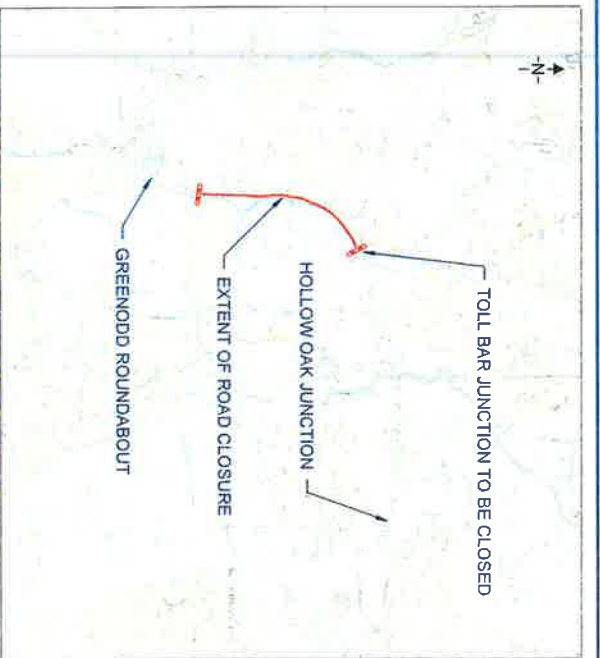

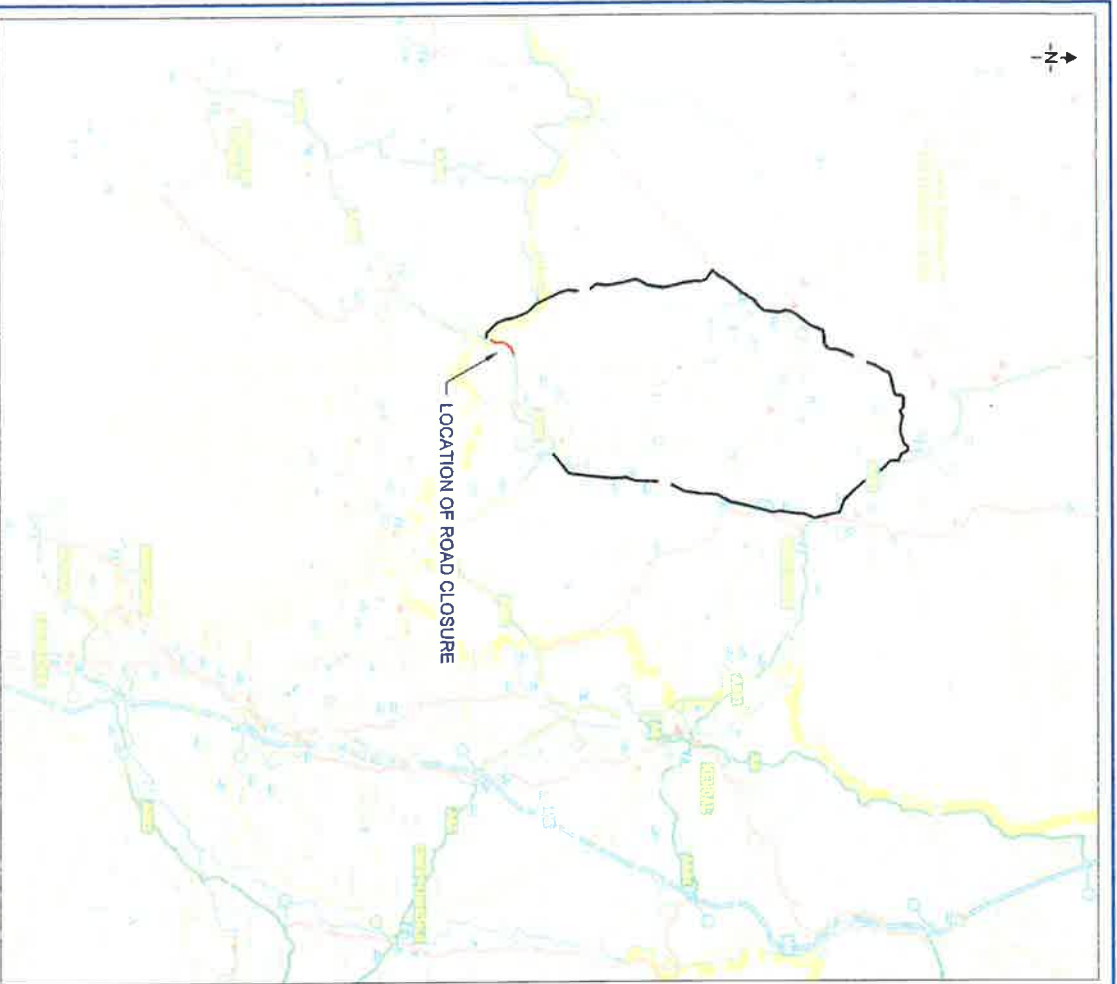

Should you require any further details regarding the scheme please contact me at the above office or the Highways Agency Information Line on 0300 1235 000.

Yours faithfully,

G. Allen
